James Onwuasoanya

Developer, trainer & creator.

PROFILE

Accounting graduate (B.Sc.) who combines financial knowledge with web development, UI/UX and technical training. Currently building an enterprise resource planning (ERP) application with accounting capabilities built in, while teaching modern web development and practical AI implementation. Also runs the website, content and IT for a Lagos retail business.

EXPERIENCE

Web Development Instructor & AI Implementation Trainer
Nairok Solutions / 20XX – Present

- Train learners to build modern, responsive websites.
- Teach practical AI implementation using real tools and projects.
- Run hands-on sessions and guide learners through project work.

Social Media Specialist
QPM Stationery Limited, Victoria Island, Lagos / 2023 – Present

- Create product content and graphics; manage the company's social media channels.
- Administer the company website and keep product listings accurate and up to date.
- Handle online customer service: enquiries, sales and delivery invoices, and timely deliveries.
- Provide IT support, troubleshooting computer systems and the local network.

Content Creator, then UI/UX & Front-End Developer
Firepips Forex Academy / 20XX – 20XX

- **Content Creator:** produced graphic designs and edited video content for the academy.
- **Promoted after one year** to the web development team, working on UI/UX design and front-end development.

Digital Marketing Specialist
Shopnow Integrated Services Limited, Lagos / 2020 – 2021

- Researched, edited and uploaded product content on luddaa.com as a product content creator.

PROJECTS

ERP Application (in development)
Personal project / Ongoing

- Building an ERP platform that merges business operations with accounting features, applying both my accounting background and development skills.
